U. S. DEPARTMENT OF COMMERCE
John T. Connor, Secretary

BUREAU OF THE CENSUS

A. ROSS ECKLER, Acting Director
HOWARD C. GRIEVES, Assistant Director

Foreign Trade Division
DINO S. VILLA, Chief

United States import statistics are compiled from information verified by Customs Examiners on import entries filed with Customs by importers. Under the direction of Lester D. Johnson, Acting Commissioner of Customs, the primary responsibility for the verification of import statistical information is assigned to the field and headquarters staff of the Division of Appraisement Administration.

SUGGESTED BRIEF CITATION

U.S. Bureau of the Census, United States Airborne General
Import Statistics, Report FT 380, 1964 Annual.
Washington, D.C. April 1965.

SPECIAL ANNOUNCEMENT

CONSOLIDATION OF REPORTS ON U.S. EXPORTS AND IMPORTS BY AIR

Effective with the 1965 monthly data, the following four air cargo publications will be consolidated into one publication:

- FT 380 - U.S. Airborne General Imports of Merchandise,
Commodity (Schedule Y) by Country of Origin
- FT 390 - U.S. Airborne General Imports of Merchandise,
Country of Origin by Commodity (Schedule Y)
- FT 780 - U.S. Airborne Exports of Domestic and Foreign
Merchandise, Commodity (Schedule X) by Country
of Destination
- FT 790 - U.S. Airborne Exports of Domestic and Foreign
Merchandise, Country of Destination by Commodity
(Schedule X)

The new publication will be known as FT 785 - U.S. Exports and Imports by Air. The commodity detail shown in the consolidated publication will be in terms of Schedule Z (which replaces Schedules X and Y) and will replace the four above publications now sold by the Superintendent of Documents, U.S. Government Printing Office.

The yearly subscription service will consist of 12 monthly issues plus a Calendar Year report, at a cost of \$5.00 per year domestic, \$1.25 additional for foreign mailing, and 50 cents per single copy. Subscriptions and remittance should be mailed to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C., 20402. Checks should be made payable to the Superintendent of Documents.

COVERAGE

General imports are a combination of imports for immediate consumption and entries into bonded warehouses. The statistics include government as well as nongovernment shipments of merchandise by air from foreign countries to the United States. However, American goods returned by the United States armed forces for their own use are excluded. United States trade with Puerto Rico and with United States possessions and trade between United States possessions are not included in this report but imports into Puerto Rico from foreign countries are considered to be United States imports and are included. Merchandise shipped through the United States in transit from one foreign country to another, when documented as such through United States Customs, is not reported as imports and is excluded from the data shown in this report. (Foreign merchandise which has entered the United States as an import and is subsequently re-exported is not treated as in-transit merchandise, and is included in this report.) Imports of household and personal effects, imports by mail and parcel post, and imports of airplanes under their own power are not included. The air general import statistics reflect fully compiled data for formal entry shipments valued at \$100 and over. Import shipments by air reported on formal entries valued at less than \$100 are excluded from the air import statistics. These under \$100 formal entry air shipments amount to less than one percent of the total air import value and shipping weight. Informal entry shipments valued \$250 or less are included in the air statistics on the basis of estimates made from a 10 percent sample of such shipments.

SOURCE OF INFORMATION

The source of information for all of the imports included in this report is the import entry (various Customs forms), which importers are required to file with Collectors of Customs for each shipment which enters the United States. Statistical factors of country of origin, net quantity, value, and commodity classification are verified or corrected as necessary by Customs examiners on all formal consumption and warehouse entries. This verification of statistical data is made at the time the examiner reviews invoices and samples of merchandise for duty and other Customs purposes, and the statistical copy of the entry is corrected by the examiner at that time if he finds that it does not accurately reflect the information called for by the statistical requirements.

VALUATION

The dollar value shown in the import statistics is defined generally as the market value in the foreign

country, excluding the United States import duties, air freight and insurance.

SHIPPING WEIGHT

Shipping weight figures represent the gross weight of shipments, including the weight of containers, wrappings, crates and moisture content. This report does not include shipping weight data for informal entries (Schedule Y number 998) since this information is not required to be shown on such entries. The dollar value of air informal entry shipments is approximately 3 to 4 percent of the total air import value. Some rough indication as to the volume of shipping weight represented by the informal air entries may be obtained by reference to the air export statistics where low valued shipments (under \$100) are approximately 2 to 3 percent of the air export value and from 10 to 12 percent of the air export shipping weight.

COMMODITY INFORMATION

The commodity information in this report is presented in terms of Schedule Y, Statistical Classification of Imports into the United States by Air Arranged in Shipping Commodity Groups. The Schedule Y commodity information represents groupings of data compiled in accordance with the classifications in Tariff Schedules of the United States Annotated (TSUSA). Copies of Schedule Y are available upon request to the Bureau of the Census. Except for Schedule Y number 998, the Schedule Y commodity classifications exclude data for informal entry shipments valued \$250 or less. (They also exclude formal entries valued less than \$100, as mentioned under Coverage, above.) Estimates for informal entry shipments, based on a 10 percent sample, are included under Schedule Y number 998 by country of origin. The variability due to sampling in the estimated total for informal entry shipments valued \$250 or less (the commodity total for Schedule Y number 998) is less than 3 percent. The estimates by country under Schedule Y number 998 are subject to sampling variability generally greater than 3 percent. The extent to which the estimates might not agree with a complete tabulation of the shipments depends on the number of documents which fall in the sample. This is the number followed by two asterisks and enclosed in parentheses which is shown for each country in the shipping weight column under Schedule Y commodity number 998. This number can be used in conjunction with the table shown on the following page to obtain an estimate of the sampling variability on a two times out of three basis. The table indicates the degree of reliability to be attached to a specified value.

In order to obtain information on the commodity composition of air informal entries (Schedule Y number 998), it is planned to select a small sample of such shipments and code them in terms of Schedule Y. It is hoped that commodity information on this sample will be sufficiently reliable to be released on an annual basis.

COUNTRY OF ORIGIN

The country reported in the statistics as the country of origin is defined as the country where the merchandise was grown, mined or manufactured (which may not be the country in which the merchandise was laden on the aircraft which brought it to the United States). Where the country of origin is not known, the country of shipment is shown. Countries are reported as defined in Schedule C, Classification of Country Designations Used in Compiling the United States Foreign Trade Statistics. Copies of Schedule C are available upon request to the Bureau of the Census.

SOURCE OF FURTHER INFORMATION ABOUT AIR IMPORT STATISTICS

Further information regarding import statistics is contained in the General Explanation of Report No. FT 125. A complete discussion of the compilation procedures and coverage for import statistics in general will be found in the foreword to the latest edition of Foreign Commerce and Navigation of the United States (copies are available for reference at public libraries). Special announcements of interest to users of air import statistics will be included in this report. A price list of United States foreign trade statistical publications is also available. Reports providing additional detail compiled but not published can be obtained on a cost basis. For free copies of the price list or for further information regarding reference copies of

tabulations or the availability of special reports, requests should be made to the Bureau of the Census.

| If the number of documents indicated from the sample is: | Then the chances are better than 2 out of 3 that a complete tabulation would have resulted in a value figure between | |
|--|--|---|
| | The specified estimate reduced by ¹ | And the specified estimate increased by |
| 0 | 0 | 1,100 |
| 1 | 800 | 2,200 |
| 2 | 1,300 | 2,500 |
| 3 | 1,600 | 2,700 |
| 4 | 1,900 | 3,000 |
| 5 or 6 | 2,300 | 3,300 |
| 7 or 8 | 2,700 | 3,600 |
| 9 or 10 | 2,900 | 3,800 |
| 11-16 | 3,300 | 4,200 |
| 17-21 | 3,800 | 4,700 |
| 22-47 | 4,300 | 6,500 |
| 48-63 | 7,000 | 7,900 |
| 64-85 | 8,000 | 9,000 |
| 86-119 | 9,000 | 9,700 |
| 120-169 | 11,200 | 12,100 |
| 170-219 | 13,000 | 13,900 |
| 220-269 | 14,600 | 15,500 |
| 270-319 | 16,000 | 16,900 |
| 320-419 | 18,600 | 19,500 |
| 420-549 | 20,800 | 21,700 |
| 550-749 | 24,700 | 25,600 |
| 750-949 | 28,000 | 29,000 |
| ² 950-1149 | 31,000 | 32,000 |

¹The minimum value of a complete tabulation for informal imports must be at least as large as 1/10 of the estimated amount shown in the report.

²If the number of documents in the sample is greater than 1149, sampling variability for the estimates of the informal entries will generally be less than 3 percent.

PUBLICATION PROGRAM 1963 CENSUSES OF MANUFACTURES AND MINERAL INDUSTRIES

Results of the 1963 Censuses of Manufactures and Mineral Industries will be issued initially in preliminary reports which will furnish summary data. These reports will be superseded by more detailed final reports. An outline of the publication program is shown below.

PRELIMINARY REPORTS

Summary Series

Manufactures (2 reports). One report will present general statistics at the U.S. level for each 4-digit industry and 2- and 3-digit industry group. General statistics will also be presented for industries grouped according to market categories—durable and nondurable goods industries. A second report will provide general statistics without industry detail for regions, States, and large standard metropolitan statistical areas.

Mineral Industries (2 reports). One report will present general statistics at the U.S. level for each 4-digit industry and 2- and 3-digit industry group. A second report will provide general statistics by 2-digit industry group for regions and States.

Industry Series

Manufactures (about 370 reports). Separate reports for virtually all of the 430 manufacturing industries will give industry totals for general statistics for the United States and for regions and States. A product table in each report will give the quantity and value of shipments of the products classified in the industry for the United States.

Mineral Industries (about 45 reports). Separate reports for industries or for groups of industries for all of the 50 mineral industries will present general statistics for the United States and for regions and States. A product table will give the quantity and value of shipments of the products classified in the industry for the United States and for regions and States.

Area Series

Manufactures (51 reports). A separate report for each State and the District of Columbia will present general statistics for the State and for the larger standard metropolitan statistical areas within the State by 2-digit and selected 3-digit industries, and for most individual counties on an "all manufacturing" basis.

Subject Series

Manufactures (2 reports). One report will provide data on the number of establishments, employment, and

value added by manufacturing for each 4-digit industry according to employment size of the establishment in each industry. A separate report will provide statistics on inventories for each 4-digit industry on a national basis; State data on inventories will also be provided.

Mineral Industries (one report). This report will provide number of establishments, employment, and value added in mining for each 4-digit industry according to employment size of the establishment in each industry.

FINAL REPORTS

All preliminary reports will be superseded by comparable final reports. After separate final reports have been issued, they will be assembled and reissued in cloth bindings as follows:

Manufactures

Volume I, Summary Statistics

1963 CENSUS OF MANUFACTURES IN PUERTO RICO

A separate 1963 Census of Manufactures was conducted jointly by the Puerto Rico Planning Board, Government of the Commonwealth of Puerto Rico, and the U.S. Bureau of the Census. A report of the findings will include statistics of manufacturing activity by industry and geographic area on value added by manufacture, employment, payrolls, inventories, capital expenditures, etc.

Additional Information and Order Forms

A more detailed description of the publication program of the 1963 censuses, including tentative publication dates, is available free of charge. Separate announcement and order forms for the preliminary reports of the censuses of manufactures and mineral industries are also available free of charge. Requests for order forms should specify which report series is desired. All requests should be addressed to the Publications Distribution Section, Bureau of the Census, Washington, D.C., 20233.
